

Marking/Rounding/Support Clamps

Marking/rounding/support clamps.

Features

- Rerounds polyethylene main following squeeze off
- To comply with code requirements, provides method for marking PE that has been squeezed off
- Simple installations using 5/16" allen wrench

Elster Perfection's Marking/Rounding/Support Clamps provide three levels of protection when squeezing off polyethylene tubing is necessary. First, applying the clamps to the squeezed-off area provides visual evidence of the squeeze-off. Secondly, it helps to re-round the PE thereby restoring the original flow characteristics of the pipe. Finally, the clamp encircles the OD of the pipe insuring that any weakened areas are properly reinforced. The clamps are molded out of our industry proven PE resin and will provide service for the life of your gas line.

Marking/Rounding/Support Clamps - connect with safety, integrity and speed

Marking/Rounding/Support Clamps

Part Number	Fits	Material
55738	1-1/4" IPS	3408
55732	2" IPS	3408
55740	3" IPS	3408
55735	4" IPS	3408

About Elster Group

A world leader in advanced metering infrastructure, integrated metering, and utilization solutions to the gas, electricity and water industries, Elster's systems and solutions reflect over 170 years of knowledge and experience in measuring precious resources and energy.

Elster provides solutions and advanced technologies to help utilities more easily, efficiently and reliably obtain and use advanced metering intelligence to improve customer service, enhance operational efficiency, and increase revenues. Elster's AMI solutions enable utilities to cost-effectively generate, deliver, manage, and conserve the life-essential resources of gas, electricity, and water.

Elster has over 7500 staff and operations in 38 countries in North and South America, Europe, and Asia.
